

Spot anything unusual during Swanfish?

Open Section Category –
Most Unusual Capture
Explanatory Notes

Help **REDMAP** track marine species that may be shifting into new areas in response to changes in your local seas, such as ocean warming and marine heatwaves.

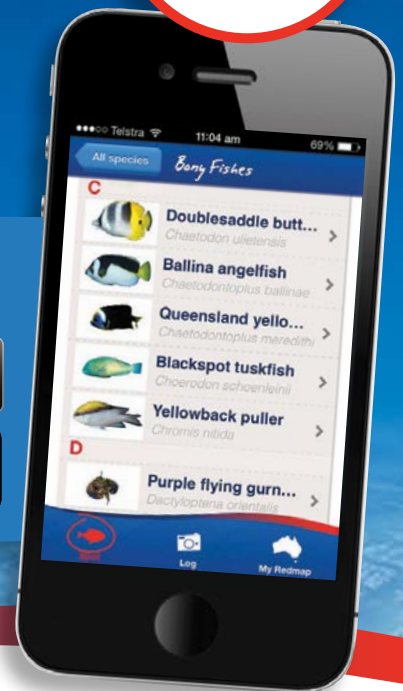

Share with REDMAP your photos of marine life that aren't usually found in the Swan and Canning Rivers. To be in the running for a \$150 voucher from Anglers Anonymous in Canning Vale, plus a REDMAP prize pack valued at \$100, here is what you need to do:

1. Download the REDMAP app or visit www.redmap.org.au.
2. Create a REDMAP account.
3. Spot or catch something 'unusual' during Swanfish.
4. Take a good quality photo of your unusual catch.
5. Upload your photo and log your report to Redmap through either the REDMAP website or app.
6. In the additional comments section please type in your Swanfish registration number.
7. Most unusual capture will be judged by a panel as convened by the competition organisers.
8. Only those 'unusual' catches logged on to REDMAP during the Swanfish competition time will be considered by the judging panel.

See the Department of Fisheries for more information at Saturday's registration and visit www.redmap.org.au/region/wa.

Thanks to Anglers Anonymous for donating the \$150 voucher. They are located at 4/255 Bannister Rd, Canning Vale and be contacted on 9455 2521.
